HTML	Node JS	Firebase
CSS (SASS, Bootstrap, Tailwind)	React JS	Application Programming Interface
JavaScript ES6+	Laravel	Version Control System

WORK EXPERIENCE

Yayasan Adipurna Inovasi Asia (Studi Independen Bersertifikat)

August - December 2023

Frontend Web Developer

As a Frontend Web Developer, I have led a variety of projects that have resulted in significant growth and success. I played a crucial role in driving the development and integration of innovative web applications, demonstrating my proficiency in a range of technologies.

Accomplishments:

- Demonstrated a comprehensive understanding of React concepts by optimizing React usage to improve application responsiveness and performance.
- Contributed to the development of several frontend projects using React and implemented UI components using Chakra UI, Bootstrap, and Tailwind to ensure aesthetic and responsive interfaces.
- Utilized React state management features, such as Context API and Redux, to implement efficient state management and enhance application performance.
- Improved application security and functionality by successfully integrating Firebase as the backend and leveraging features such as Firebase Authentication.
- Experienced in working collaboratively through GitHub, using pull requests and code reviews to improve code quality.
- Streamlined application development and testing by setting up a local server using JSON-server.

Program Penguatan Kapasitas Organisasi Kemahasiswaan

June - November 2023

Fullstack Web Developer

Lead the team in developing a website according to the needs of the community but still comply with the terms and policies that apply to the Ministry of Communication and Information in Kediri.

Accomplishments:

- As the Person In Charge of leading the IT team to achieve website development goals efficiently, ensuring strict adherence to the standards set by Ministry of Communication and Information in Kediri.
- Utilized Laravel framework and Alpine.js library to design and develop a successful website, demonstrating in-depth technical knowledge and expertise in web development.
- Implemented web security best practices to protect user data from CSRF and XSS attacks, and SSL implementation, to ensure data security and integrity.
- Prepared clear and comprehensive documentation related to the development project, making it easier for subsequent team members or developers to maintain and develop.

Core Initiative (Internship)**January - March 2023****Frontend Web Developer**

Assisted in translating design requirements into interactive experiences, developed interactive layouts using various technologies, and helped debug issues to improve application functionality and performance.

Accomplishments:

- Translated complex design requirements into interactive user experiences to promote customer engagement and drive web traffic.
- Developed an interactive layout, using HTML, CSS, JavaScript, and Vue to generate an improved user experience and ensure high-quality design and cross-browser compatibility.
- Spearheaded debugging efforts to eliminate cross-browser issues, helped improve application functionality, and increased performance by optimizing page elements for faster loading times.

Politeknik Elektronika Negeri Surabaya (Internship)**January - March 2020****Network Engineer**

Designs network solutions that will help companies achieve their business goals, while providing a great user experience for everyone who relies on the network to get their jobs done.

Accomplishments:

- Analyzed user needs and developed a scalable network design to support company growth.
- Provide technical support in web server, remote access, proxy, VPN, and 10+ internal operation tasks.
- Build, configure and manage software related to network infrastructure or telephony infrastructure.
- Implement VPS configuration for website hosting and maintenance from scratch.

Putra Jaya Komputer (Internship)**July - September 2019****It Support**

Assisted in identifying and resolving user issues by using effective diagnostic techniques and providing solutions through various channels. Ensuring a smooth user experience is a priority.

Accomplishments:

- Identify user issues, diagnosing problems and delivering workable solutions via phone, email or desk.
- Troubleshooting networks hardware and ensuring that network performance remains optimal.
- Overseeing the installation of hardware and software including printers, PC's, and OS's.
- Upgraded existing IT infrastructure including the implementation of system security enhancements.
